Footnotes

- 1 For primary investments, exposure commitment is the commitment to the investment. For secondary and co-investments, exposure commitment is the purchase price paid plus unfunded commitment on the day of purchase.
- 2 Cumulative Contributions represent all amounts funded to the investments, including amounts contributed for fees and expenses.
- 3 The cost basis of the investments in private equity limited partnerships is determined utilizing the Partners' proportionate share of the cost basis of each limited partnership and their portfolio companies, as well as net other assets.
- 4 We use the best information we have reasonably available to determine or estimate fair value. We estimate fair value for private interests based on a methodology that begins with the most recent information available from the general partner of the underlying fund or partnership, and considers subsequent transactions, such as capital contributions or distributions. The investments include adjustments based on information judged to be reliable that reports or indicates valuation changes, including realizations and other portfolio company events.
- 5 Cumulative Distributions represents all amounts distributed by the investment and includes additional cash receipts.
- 6 Total value equals Fair value plus Cumulative Distributions.
- 7 Vintage year is based on the year of first cash flow.
- 8 Unfunded Commitment represents contributions applied to commitment less recallable distributions. This amount also includes payables to investments. Commitments denominated in foreign currency are translated into U.S. dollar equivalents using spot rates as of March 31, 2025.
- 9 Gross internal rate of return (IRR) calculated based on cash inflow/outflow to investment and the current net asset value. IRR is presented net of underlying investment fees but gross of NB fees and carried interest. The Gross IRR of private equity investments is not meaningful (NM) in the early years.

Disclosure to persons other than the recipient potential Investor and their representatives is prohibited.

This presentation (the "Presentation") is being furnished on a confidential basis to a sophisticated investor for informational and discussion purposes only and does not constitute an offer to sell or a solicitation of an offer to purchase any security. Any such offer or solicitation shall be made pursuant to additional documentation relating to the Fund, which documentation describes risks related to an investment in the Fund as well as other important information about the Fund and its sponsor. The information set forth herein does not purport to be complete and is subject to change. This Presentation is qualified in its entirety by all of the information set forth in any such additional documentation. This Presentation does not constitute a part of any offering documentation of any Fund. Please refer to the Memorandum for important disclosures regarding various risks related to investment in the Fund. An investment in the Fund involves significant risks, including the risk of total loss of capital.

This presentation may include information from other funds managed by the Adviser and its predecessors-in-interest. Neuberger Berman and its affiliates are the successor to all of the predecessors' operational assets, and employ substantially all of their key personnel, and the Adviser became either the advisor or sub-advisor to the funds previously advised by the predecessors. Historical information contained herein is for illustrative purposes only; such information is based on market and other conditions at the time that may significantly change, and should not be relied upon. Past performance is not indicative of future results. There can be no assurance that investments marked with the footnote "Pending investments in process of documentation" will close, or that any of the terms of such transactions described herein or under discussion will be achieved. There can be no assurance that the Fund will achieve comparable results, that targeted diversification or asset allocations will be met or that the Fund will be able to implement its investment strategy and investment approach or achieve its investment objective.

Where an unrealized investment has been valued by the general partner of the fund, there can be no assurance that these values will ultimately be realized upon disposition of the investments. The values of unrealized investments are estimated, inherently uncertain and subject to change. Actual returns on unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, legal and contractual restrictions on transfer that may limit liquidity, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions and circumstances on which the valuations used in the prior performance data contained herein are based. Accordingly, actual realized returns on unrealized investments may differ materially from the returns indicated herein.

Statements contained in this Presentation that are not historical facts are based on current expectations, estimates, projections, opinions and beliefs of the General Partner. Such statements involve known and unknown risks, uncertainties and other factors, and undue reliance should not be placed thereon. In addition, this Presentation contains "forward-looking statements." Actual events or results or the actual performance of the Fund may differ materially from those reflected or contemplated in such forward-looking statements. No presentation or warranty is made as to future performance or such forward-looking statements. Financial or other projections described herein are illustrative and intended for discussion purposes only. Alternative assumptions may result in significant differences in such illustrative projections. Opportunities described in such illustrative projections may not be found nor is prospective performance of the type described guaranteed, and the Fund may not be able to achieve its objective or implement its strategy. Certain economic and market information contained herein has been obtained from published sources prepared by third parties and in certain cases has not been updated through the date hereof. While such sources are believed to be reliable, neither the Fund, its General Partner, the Adviser nor their respective affiliates or employees assume any responsibility for the accuracy or completeness of such information. Unless otherwise indicated, returns are presented on a "gross" basis (i.e. they do not reflect the management fees, carried interest, transaction costs and other expenses that may be paid by Investors, which may be significant and may lower returns).
