Pension Bridge provides exclusive events for senior executives within the institutional investment management industry. Bringing together over 400 attendees from North America's largest investors and global asset managers, this day and a half conference offers an intimate environment to strengthen relationships, knowledge sharing and networking, discuss market trends and challenges, and refresh your knowledge of the investment industry. Seen as the darling of the investment community, private equity now faces significant headwinds globally. The outbreak of war in the Ukraine, rising inflationary pressure, and the threat of recession have provoked a massive reapproaching of spend. However, PE now has an opportunity to purchase distressed assets and tuck in and merge additional technology assets to make returns. This year we will explore these issues in depth, discussing the challenges the private equity industry has faced over the past 12 months, whilst offering an outlook on the trends that lie ahead.

This forum will examine the obstacles that stand in the way of closing public pension funding gap and explore new solutions to overcome such obstacles, including better risk management in economic cycles, use of new and improved debt instruments, and closing tax loopholes.

This seminar is held in conjunction with the Annual Conference and Exhibition. It is intended for new and novice trustees who are seeking a better understanding of their role and responsibilities as trustee of their pension fund. It also serves as a refresher for experienced trustees interested in staying up-to-date.

The program is designed with a clear focus on the educational needs of trustees who are relatively new to a pension plan board. The focus is on investing principles, board policies, and fundamental concepts that every trustee should know.

The second day of TEDS features the Asset Allocation Challenge, an interactive computer-based investment training exercise. Members are placed in groups and asked to select assets based on the given economic environment presented to them. This program is ideal for new trustees and can be repeated.

TEDS attendees can earn up to eight (9.5) hours of continuing education credits.
