Brief summary of information and knowledge gained:
Conference focused on alternative assets. I learned
about all private asset classes, but found the
disucssion on the private credit bubble most useful.

Evaluation of the event:
Seemed poorly attended. More GPs looking for money
as opposed to fellow institutional investors to
network with and compare notes. I am not sure I
would go again. Maybe for the content only.

Recommendation concerning future attendance:
See comments above. I think the content was good,
but networking with other institutional plans is
often of equal value and that was lacking at this
event.
