Overview

Background

- 1) The Boards of Administration for the San Jose Police and Fire Department Retirement Plan and the Federated City Employees' Retirement System (together, "Boards") are established pursuant to San José City Charter § 810 and San José Municipal Code ("SJMC") §§ 2.08.1000 and 2.08.1200. Under California Constitution, article XVI, § 17, the Boards are charged with the exclusive and sole authority over the actuarial, investment, legal, and benefit payment functions related to the administration of the retirement systems they respectively oversee.
- 2) SJMC §§ 3.28.155 and 3.36.385 grant the Boards authority to enter into contractual agreements for goods and services deemed necessary to carry out each board's duties and responsibilities for plan administration. Moreover, SJMC §§ 3.28.140 and 3.36.350 provide the Boards with rulemaking authority to govern plan administration.
- 3) The Office of Retirement Services ("ORS") provides staff services for the Boards to fulfill their duty to administer the retirement systems and performs other duties that the Boards request, as stated under SJMC § 2.04.3120.

Purpose

- 4) The purpose of this *Policy Regarding the Procurement and Contracting of Goods and Services* (the "Policy") is to establish the guidelines by which the Boards and ORS staff ("staff") will procure and contract for goods and services necessary for the Boards' administration of the retirement systems. A separate policy (*Policy Regarding the Oversight and Monitoring of Contractors*) establishes the guidelines by which the Boards and staff will effectively oversee and monitor the vendors of goods and services ("Contractors"). Investment Management Agreements are exempt from this Policy and will instead be governed by the CIO Charter and Investment Policy Statement.
- 5) Appendices 1 and 2 describe the roles and authorities respectively of the Board and staff related to this Policy; each section of this Policy describes the responsibilities of the Board, Chief Executive Officer ("CEO"), Chief Investment Officer ("CIO"), Deputy Director (collectively "Executives") and staff. To support the Policy's objectives, staff will also comply with any procedures related to the Policy (the "Procedures").
- 6) The Policy's objectives include:
 - a) procuring goods and services in a manner that is efficient, transparent, economical, fair, and in compliance with all applicable laws;
 - b) selecting a process for Contractor selection that reflects the importance and cost of the goods and services;
 - c) establishing contracts related to the goods and services that are consistent with the fiduciary duty to the members and beneficiaries of the San Jose Police and Fire Department Retirement Plan and the Federated City Employees' Retirement System (together, "Plans"); and
 - d) clarifying authorities, roles, and responsibilities.

Goods and Services Governed by the City's Policies/Rules (not this Policy)

- 7) Contracts for goods and services procured pursuant to SJMC § 4.12. that (1) exceed the Competitive Procurement Threshold, as defined in SJMC § 4.12.210 A, and (2) are not covered under Paragraph 10 and 11 of this Policy, shall comply with the City's rules on procurement and contracting pursuant to SJMC §§ 4.12.001 *et seq* and not this Policy.
- 8) The following services, which are provided to the Boards and/or ORS by various City Departments (i.e., Finance, Human Resources, and Information Technology), will be governed by the City's rules and not this Policy:
 - a) payroll and benefits related to ORS employees;
 - b) information systems:
 - i. email;
 - ii. network services hardware; and
 - iii. cybersecurity.
- 9) Appendix 6 has a checklist that ORS can use to support its compliance with the City's rules where compliance is required.

Request for Information Process

- 14) A Request for Information may precede a Request for Proposals (“RFP”) or other search process to find interested vendors of goods and services, clearly identifying the needs or goods and services sought.
- 15) A Request for Information should contain, at a minimum:
 - a) a description of the goods and services being requested;
 - b) term of a potential contract;
 - c) deadline for submitting a response to the Request for Information; and
 - d) contact information for responding to the Request for Information.

Procurement Processes

- 16) Appendix 2 describes the procurement process to be used, which depends on the contractor type or Contract Value. Appendix 2 also describes the contracting authorities of the Board, CEO, Responsible Executive, Responsible Employee, and others.
- 17) The permitted procurement methods include:
 - a) Sole Source¹;
 - b) Invitation for Bid (“IFB”);
 - c) RFP;
 - d) Request for Qualifications; and
 - e) Small Purchase Process (“SPP”).

a) Sole Source

- 18) A Sole Source approach is permitted when:
 - a) a competitive process will not likely yield a viable alternative to a known vendor; or
 - b) important goods or services are urgently needed, a competitive process will not be timely, and a known Contractor exists; or
 - c) the vendor’s goods or services are required for proper operation or function to match other goods or services with respect to the repair or expansion or completion of a system or program already in use by ORS, including, but not limited to, technology purchases required to achieve interoperability with existing hardware, software, systems, or programs.²

b) Invitation for Bid

- 19) An IFB will be used when multiple bidders are available and willing to bid and procurement needs can be stated in detail, with precision, or where goods or services are standardized.

c) Request for Proposals

- 20) RFPs will be used in most circumstances where the Contract Value exceeds the Threshold Amount in Appendix 2.

¹ The City Policy No. 5.1.4 shall apply to supplies, materials, and equipment for ORS, but this Policy’s provisions on “Sole Source” shall apply to professional services and critical plan administration services/goods governed under this Policy.

² Source: SJMC § 4.12.240(B)(2)

- 21) An RFP will be used where the goods or services cannot be stated with specificity (such as Professional Services) or where a number of different types of professional goods or services are required.

d) Request for Qualifications

- 22) A Request for Qualifications will be used where:
- a) the available specifications or description of the goods, projects, or services are not sufficiently complete without further technical evaluations and discussions with potential Contractors; or
 - b) the needs of the Plans/ORS are best met by having one or more Pre-Qualified Contractors within a designated field of work.

e) Small Purchase Process

- 23) For Small Purchases (as defined in the Glossary), the procurement process for goods or services will be based on a less formal process resulting in a minimum of one written or oral quote from a qualified source. Appendix 2 establishes the dollar amount (“Small Purchase Amount”) and contracting authorities where a less formal process may be applied.
- 24) Where the Contract Value is between the Small Purchase Amount and the Threshold Amount, the selection of Contractors will be based on a less formal competitive process resulting in a minimum number of quotes from qualified sources if they can be reasonably identified.
