## ASSET ALLOCATION IMPLEMENTATION

Police & Fire Department Retirement Plan

# Introduction

On August 2, 2018, the Board approved a new asset allocation policy and requested staff do more work on ranges. This presentation is the implementation plan.

Pending approval at the August 28, 2018 Investment Committee and subsequent September 6, 2018 Board meeting, implementation would begin with a concurrent "go live" date October 1, 2018. While the majority of transitions would be fully complete by January 1, 2019, there would be a quarter of potentially high unintended tracking error. For performance evaluation purposes, staff would expect to be accountable for deviations from policy starting in 2019.

The core of this presentation summarizes the changes that need to occur at the asset class and sub-asset class level, as well as benchmark changes to more accurately reflect the intentions of the asset allocation. These are further broken down into public markets and private markets strategies.

The final slide combines all of the specific approvals from each asset class, and at the plan level, in order to present a recommendation that can be easily referenced in a motion.

# **Public Markets**

### Public Equity (US Equity, International Equity, Emerging Markets Equity)

- Strategies with multi-regional exposures will be decomposed by region when calculating the weights of the sub-asset classes.
- Passive vehicles will be used to obtain policy beta exposures.
  - The passive vehicles will serve as the funding source for active searches going forward, especially in Emerging Markets.
- · Other changes may include reduced usage of long/short strategies.

### Fixed Income (Cash, Short-term IG Bonds, Immunized Cash Flows, TIPS, Core Bonds, High Yield, EMD)

- Existing High Yield and Core Bond managers will be terminated.
- Passive vehicles will be used to obtain beta exposures in the Short Duration, TIPS, and Immunized Cash Flow allocations.
  - The passive vehicles will serve as the funding source for active searches going forward.
  - The bulk of the legacy strategies have daily liquidity, with the exception of High Yield.

#### Absolute Return

All current strategies will be retained, and incrementally increased to bring the AR allocation to the new policy weight.

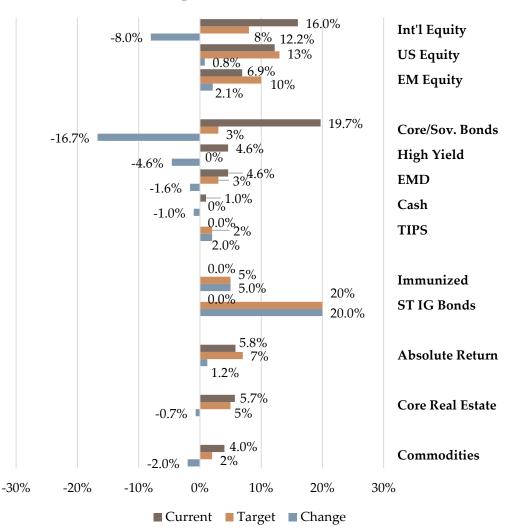

#### **Core Real Estate**

Redeem from American Core Realty Fund to reach new target.

#### **Commodities**

- Pinnacle Natural Resources redemption approved on May 17, 2018 for December 31, 2018 dealing date.
- Redeem from Credit Suisse Risk Parity fund to reach target.
- Invest proceeds from Pinnacle Natural Resources redemption into Credit Suisse Risk Parity fund beginning mid-January 2019.
