Bringing together over 400 attendees from North America's largest investors and global asset managers, this day and a half conference offers an intimate environment to strengthen relationships, knowledge sharing and networking, discuss market trends and challenges, and refresh your knowledge of the investment industry. Seen as the darling of the investment community, private equity now faces significant headwinds globally. The outbreak of war in the Ukraine, rising inflationary pressure, and the threat of recession have provoked a massive reapproaching of spend. However, PE now has an opportunity to purchase distressed assets and tuck in and merge additional technology assets to make returns. This year we will explore these issues in depth, discussing the challenges the private equity industry has faced over the past 12 months, whilst offering an outlook on the trends that lie ahead.

The issue of pension funding gap, real or not, is often used to change pension plans as we know them. The most common solutions revolve around increasing employee and employer contributions, reducing benefits, and converting lifetime guarantee of defined benefit pensions into do it yourself pension schemes.

This forum will examine the obstacles that stand in the way of closing public pension funding gap and explore new solutions to overcome such obstacles, including better risk management in economic cycles, use of new and improved debt instruments, and closing tax loopholes.
