Footnotes

- 1 For primary investments, exposure commitment is the commitment to the investment. For secondary and co-investments, exposure commitment is the purchase price paid plus unfunded commitment on the day of purchase.
- 2 Cumulative Contributions represent all amounts funded to the investments, including amounts contributed for fees and expenses.
- The cost basis of the investments in private equity limited partnerships is determined utilizing the Partners' proportionate share of the cost basis of each limited partnership and their portfolio companies, as well as net other assets.
- We use the best information we have reasonably available to determine or estimate fair value. We estimate fair value for private interests based on a methodology that begins with the most recent information available from the general partner of the underlying fund or partnership, and considers subsequent transactions, such as capital contributions or distributions. The investments include adjustments based on information judged to be reliable that reports or indicates valuation changes, including realizations and other portfolio company events.
- 5 Cumulative Distributions represents all amounts distributed by the investment and includes additional cash receipts.
- 6 Total value equals Fair value plus Cumulative Distributions.
- 7 Vintage year is based on the year of first investment with exception for the secondary investments of which it is the year of the purchase.
- 8 Unfunded Commitment represents contributions applied to commitment less recallable distributions. This amount also includes payables to investments. Commitments denominated in foreign currency are translated into U.S. dollar equivalents using spot rates as of March 31, 2019.
- Gross internal rate of return (IRR) calculated based on cash inflow/outflow to investment and the current net asset value. IRR is presented net of underlying investment fees but gross of NB fees and carried interest. The Gross IRR of private equity investments is not meaningful (NM) in the early years.
- Gross multiple of invested capital (MOIC) is computed based on commencement-to-date distributions plus the current net asset value divided by commencement-to-date capital contributions. MOIC is presented net of underlying investment fees but gross of NB fees and carried interest.

This presentation (the "Presentation") is being furnished on a confidential, one-on-one basis to a sophisticated investor for informational and discussion purposes only and does not constitute an offer to sell or a solicitation of an offer to purchase any security. The information set forth herein does not purport to be complete and is subject to change. NB Alternatives Advisers LLC and their affiliated companies are not soliciting any action based upon this material. The products mentioned in this document may not be eligible for sale in some states or countries. None of NB Alternatives Advisers LLC, nor any of their affiliated entities is providing investment advice through this material. Securities, financial instruments, products or strategies mentioned in this material may not be suitable for all investors. This material is not intended as a recommendation to any particular client. In reaching a determination as to the appropriateness of any proposed transaction or strategy, clients should undertake a thorough independent review of the legal, regulatory, credit, tax, accounting and economic consequences of such transaction in relation to their particular circumstances and make their own independent decisions.

The information contained herein must be treated in a confidential manner and may not be reproduced, used or disclosed, in whole or in part, without the prior written consent of NB Alternatives Advisers LLC. Disclosure to persons other than the recipient and their representatives is prohibited.

Past performance is not necessarily indicative of future results. There can be no assurance that the portfolio or any part of the portfolio will achieve comparable results, that targeted, diversification or asset allocations will be met or that the portfolio or any part of the portfolio will be able to implement its investment strategy and investment approach or achieve its investment objective.

Certain economic and market information contained herein has been obtained from published sources prepared by third parties and in certain cases has not been updated through the date hereof. While such sources are believed to be reliable, neither NB Alternatives Advisers LLC, nor their respective affiliates nor employees assume any responsibility for the accuracy or completeness of such information.

This Presentation may contain certain forward-looking statements. Forward-looking statements speak only as of the date of the document in which they are made and relate to expectations, beliefs, projections (including anticipated economic performance and financial condition), future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts and are subject to risks and uncertainties including, but not limited to, statements as to: future operating results; business prospects and the prospects of investments; the impact of investments that are expected to be made; the dependence of future success on the general economy and its impact on the industries in which we invest; the ability of our investments to achieve their objectives; differences between our investment objective and the investment objectives of the private equity funds in which we invest; the rate at which we deploy our capital in private equity investments, co-investments and opportunistic investments; our expected financings and investments; the continuation of our investment managers as our service providers and the continued affiliation with our investment managers and their key investment professionals; the adequacy of our cash resources and working capital; and the timing of cash flows, if any, from the operations of our underlying private equity funds and our underlying portfolio companies. In some cases, you can identify forward-looking statements by terms such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "potential," "should," "will," and "would," or the negative of those terms or other comparable terminology. The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. These beliefs, assumptions and expectations are subject to risks and uncertainties and can change as a result of many possible events or factors, not all of wh
