Introduction to The Cortex Report

Welcome to **The Cortex Report**, a bi-monthly publication that has been customized for your board. The Cortex Report identifies various conferences, seminars, courses and other education events over the coming months that may be of value to trustees and staff.

Education events are sorted in chronological order, and include information such as event name, event sponsor/provider, date, topic areas, fees, and a general description. Each event listing also contains a link to the event sponsor's website. If you are interested in attending an education event, please be sure to check the sponsor's website for complete details.

Please also note the terms and conditions for use of this report at the end of the report.

<p>BCA has been an independent provider of global investment research for over 65 years. Markets are, to use Paul Samuelson's phrase, "micro efficient but macro inefficient." CIOs, asset allocators, and investment professionals often struggle to find a practical way to construct optimal multi-asset portfolios. This course will help you:</p> <ul style="list-style-type: none"> • Learn methods and strategies to harvest alpha from these macro inefficiencies. • Identify portfolio objectives as a starting point for successful asset allocation strategies. • Match the macro environment with the appropriate asset allocation strategies - often the most challenging part of the investment process. • Become more effective at interpreting how BCA's Global Asset Allocation team sees the world; an important input given the increasingly complex macro environment. • Gain a better understanding of how to develop and execute asset allocation strategies, and how investors should be positioned given prevailing market conditions. <p>The course comprises two 1-hour sessions per week for 4 weeks (Tuesday and Thursday).</p>		<p>Fees</p> <p>\$1,888</p> <p>Contact</p> <p>Phone: +1 514 499 9550 Toll-free: 1 800 724 2942</p> <p>Email</p> <p>academy@bcaresearch.com</p>

Topic Area: Leadership

Attendance: Open To All

Wise judgment and effective decision-making have always been essential skills for leaders across all professional settings. Today, leaders have access to mountains of data from endless sources. The question is, how can they leverage this abundance of information to make smarter decisions?

Leadership Decision Making (Online) features hands-on learning experiences that help leaders like you improve decision analysis and leadership effectiveness. During this ten-day intensive online program, you'll discover how to recognize biases in judgment that affect even the most intelligent individuals and to incorporate structured decision-making techniques empirically shown to enhance decision making. You'll also receive customized, confidential feedback on your decision-making style from the Harvard Decision Science Laboratory—one of the most popular aspects of the program.

Investors need assets that provide returns in a low-yield environment. Recent years have seen a major shift into private credit, strong interest in unconstrained fixed income, and growing interest in emerging markets and quant strategies. This conference will provide a survey of fixed income assets and strategies, and how they fit into a risk profile.

This event will survey the fixed income market from triple A to Z with thought leaders tackling the major questions that face investors as they look to get more out of their fixed income allocations.

While in the short term, the Covid-19 pandemic has focused attention on restoring public health and preserving the economy, the crisis has also raised awareness of the need to boost the green economy and build resilience ahead of another impending crisis: climate change. Meanwhile, with increasing evidence that investments that take climate stewardship into account can achieve superior financial performance, asset owners are pushing both the companies in their portfolios and the asset managers who manage those portfolios to develop strategies that reflect pressing climate realities. This conference will discuss the role the investment community can play in unleashing the financial flows that are urgently needed if we are to recover from the Covid-19 crisis while also avoiding the worst effects of climate change.
